Character Certificate

This is to certify that Mr. Sawan Gurung, son of Mr. Jambu Gurung was a student of Informatics College Pokhara. As per the college records his date of birth is August 07, 2001. He joined this institution in 2021 A.D. and graduated in 2024 A.D.

To the best of my knowledge he stands a decent moral character and I can testify his honesty and approachable nature. He is naturally curious and gifted individual, and has done well in his classes so far. I am confident that he will continue to show his excellent performances in whatever steps he takes in future. I wholeheartedly recommend and wish him the very best in his entire future endeavours.

Thank you.

Academic Transcript (incorporating Diploma Supplement)

This Academic Transcript incorporates the model developed by the European Commission, Council of Europe and UNESCO/CEPES for the Diploma Supplement.

The purpose of the supplement is to provide sufficient independent data to improve the international 'transparency' and fair academic and professional recognition of qualifications (diplomas, degrees, certificates etc.). It is designed to provide a description of the nature, level, context, content and status of the studies that were pursued and successfully completed by the individual named on the original qualification to which this supplement is appended. It should be free from any value judgements, equivalence statements or suggestions about recognition.

4.4 Grading Scheme:

Module marks are out of 100 and the minimum pass mark is 40 for undergraduate (UG) modules and 50 for postgraduate (PG) modules. In terms of the FHEQ / NQF levels referred to in these results, levels 3, 4, 5, and 6 are undergraduate and levels 7 and 8 are postgraduate.

The European Credit Transfer System (ECTS)

The European Credit Transfer System was developed by the European Commission in order to provide common procedures to guarantee academic recognition of studies abroad. It provides a way of measuring and comparing academic programmes of study, and transferring them from one institution to another. ECTS credits are a value allocated to course modules to describe the student workload required to complete them and carry half the credit value of each module achieved at the university.

The following conversions to and from ECTS grades shall be used, where appropriate.

UG Mark	PG Mark	ECTS Grade
70% - 100%	70% - 100%	A: Excellent: outstanding performance with only minor errors
60% - 69%	63% - 69%	B: Very Good: above the average standard but with some errors
50% - 59%	58% - 62%	C: Good: generally sound work with a number of notable errors
43% - 49%	53% - 57%	D: Satisfactory: fair but with significant shortcomings
40% - 42%	50% - 52%	E: Sufficient: performance meets the minimum criteria
30% - 39% (2017/18 onwards) 25% - 39% (Prior to 2017/18)	25% - 49%	FX: Fail: some more work required before the credit can be awarded
0% - 29% (2017/18 onwards) 0% - 24% (Prior 2017/18)	0% - 24%	F: Fail: considerable further work is required

Undergraduate Honours Classification

The threshold for each classification band shall be as follows. Where a student is within 2.5% of a boundary they may be upgraded if at least half the marks are in the higher class.

69.5% and above	First Class Honours
59.5% - 69.49%	Upper Second Class Honours
49.5% - 59.49%	Lower Second Class Honours
40% - 49.49%	Third Class Honours

Master's Degree

A Master's degree with Distinction shall be awarded to a student who has achieved an average mark of at least 70% overall or an average mark of at least 68% and a mark greater than or equal to 70% in their dissertation or equivalent.

A Master's degree with Merit, shall be awarded to a student who has achieved an average mark of at least 60% overall or an average mark of at least 58% and a mark greater than or equal to 60% in their dissertation or equivalent.

A Master's degree shall be awarded to a student who has passed modules equivalent to 180 credits, including a dissertation or equivalent.

Description of Higher Education in England, Wales and Northern Ireland

In England, Wales and Northern Ireland¹, higher education institutions are independent, self-governing bodies active in teaching, research and scholarship. They are established by Royal Charter or legislation and most are part-funded by government.

Higher education (HE) is provided by many different types of institution. In addition to universities and university colleges, whose charters and statutes are made through the Privy Council which advises the Queen on the granting of Royal Charters and incorporation of universities, there are a number of publicly-designated and autonomous institutions within the higher education sector. Publicly funded higher education provision is available in some colleges of further education by the authority of another duly empowered institution. Teaching to prepare students for the award of higher education qualifications can be conducted in any higher education institution and in some further education colleges.

Degree awarding powers and the title 'university'

All universities and many higher education colleges have the legal power to develop their own courses and award their own degrees, as well as determine the conditions on which they are awarded. Some HE colleges and specialist institutions without these powers offer programmes, with varying extents of devolved authority, leading to the degrees of an institution which does have them. All universities in existence before 2005 have the power to award degrees on the basis of completion of taught courses and the power to award research degrees. From 2005, institutions in England and Wales that award only taught degrees ('first' and 'second cycle') and which meet certain numerical criteria, may also be permitted to use the title 'university'. Higher education institutions that award only taught degrees but which do not meet the numerical criteria may apply to use the title 'university college', although not all choose to do so. All of these institutions are subject to the same regulatory quality assurance and funding requirements as universities; and all institutions decide for themselves which students to admit and which staff to appoint. Degrees and other higher education qualifications are legally owned by the awarding institution, not by the state. The names of institutions with their own degree awarding powers ('Recognised Bodies') are available for download at: <https://www.gov.uk/guidance/recognised-uk-degrees>.

Higher education institutions, further education colleges and other organisations able to offer courses leading to a degree of a Recognised Body are listed by the English, Welsh and Northern Irish authorities, and are known as "Listed Bodies". View the list at: <https://www.gov.uk/guidance/recognised-uk-degrees>.

Qualifications

The types of qualifications awarded by higher education institutions at sub-degree and undergraduate (first cycle) and postgraduate level (second and third cycles) are described in the Framework for Higher Education Qualifications in England, Wales and Northern Ireland (FHEQ). This also includes qualification descriptors that were developed with the HE sector by the Quality Assurance Agency for Higher Education (QAA) - established in 1997 as an independent UK-wide body to monitor the standard of higher education provision - www.qaa.ac.uk. The FHEQ was self-certified as compatible with the Framework for Qualifications of the European Higher Education Area, the qualifications framework adopted as part of the Bologna

Process, in February 2009. Foundation degrees, designed to create intermediate awards strongly oriented towards specific employment opportunities, were introduced in 2001. In terms of the European Higher Education Area they are "short cycle" qualifications within the first cycle. The FHEQ is one component of the Credit and Qualifications Framework for Wales (CQFW). The Qualifications and Curriculum Authority (QCA), the Department for Children, Education, Lifelong Learning and Skills, Wales (DCELLS) and the Council for Curriculum Examination and Assessment, Northern Ireland (CCEA) have established the Qualifications and Credit Framework (to replace, in time, the National Qualifications Framework (NQF)). These authorities regulate a number of professional, statutory and other awarding bodies which control VET and general qualifications at all levels. The QCF is also incorporated into the CQFW. There is a close association between the levels of the FHEQ and the NQF (as shown overleaf), and other frameworks of the UK and Ireland (see 'Qualifications can cross Boundaries')

<http://www.qaa.ac.uk/en/Publications/Documents/qualifications-can-cross-boundaries.pdf>

Quality Assurance

Academic standards are established and maintained by higher education institutions themselves using an extensive and sophisticated range of shared quality assurance approaches and structures. Standards and quality in institutions are underpinned by the universal use of external examiners, a standard set of indicators and other reports, by the activities of the QAA, and in professional areas by relevant professional, statutory and regulatory bodies. This ensures that institutions meet national expectations described in the FHEQ: subject benchmark statements, the Code of Practice and programme specifications. QAA conducts peer-review based audits and reviews of higher education institutions with the opportunity for subject-based review as the need arises. The accuracy and adequacy of quality-related information published by the higher education institutions is also reviewed. QAA also reviews publicly funded higher education provision in further education colleges.

Credit Systems

Most higher education institutions in England and Northern Ireland belong to one of several credit consortia and some operate local credit accumulation and transfer systems for students moving between programmes and/or institutions. A framework of national guidelines, the Higher Education Credit Framework for England, was launched in 2008. Credit is also an integral part of the CQFW and the QCF. It may be possible for credit awarded in one framework to be recognised by education providers whose qualifications sit within a different framework. HE credit systems in use in England, Wales and Northern Ireland are compatible with the European Credit Transfer System (ECTS) for accumulation and transfers within the European Higher Education Area, and are used to recognise learning gained by students in institutions elsewhere in Europe.

Admission

The most common qualification for entry to higher education is the General Certificate of Education at 'Advanced' (A) level. Other appropriate NQF level 3 qualifications and the kite-marked Access to HE Diploma may also provide entry to HE. Level 3 qualifications in the CQFW, including the Welsh Baccalaureate, also provide entry, as do Scottish Highers, Advanced Highers or qualifications at the same levels of the Scottish Credit and Qualifications Framework. Part-time and mature students may enter HE with these qualifications or alternatives with evidenced equivalent prior formal and/or experiential learning. Institutions will admit students whom they believe to have the potential to complete their programmes successfully.

¹ The UK has a system of devolved government, including for higher education, to Scotland, to Wales and to Northern Ireland. This description is approved by the High Level Policy Forum which includes representatives of the Department for Business, Innovation and Skills, the Scottish Government, the Welsh Assembly Government, the Higher Education Funding Councils for England, Scotland and Wales, the Quality Assurance Agency (QAA), Universities UK (UUK), GuildHE and the National Recognition Information Centre for the UK (UK NARIC).
